

## Reimagining the future of STEM Learning

**The Million Girls Moonshot** seeks to re-imagine who can engineer, who can build, who can make. It will inspire and prepare the next generation of innovators **by engaging one million more girls in STEM learning opportunities** through afterschool and summer programs during the next 5 years.

The Moonshot will be active in out-of-school programs in all 50 states, including Wisconsin, leveraging the Mott-funded State Afterschool Networks, which has access to more than 10 million youth and 100,000 afterschool programs across the country.
